## General Care and Maintenance

1. Clean o-ring with a soft clean cloth to ensure the sealing area is free of dirt that may damage the o-ring seal.
2. Occasionally apply a light coat of food grade silicone grease to the o-ring.
3. Maintain fresh batteries as needed.
4. Do not mix old and new batteries.

## CAUTION

To prevent the 3410PL flashlight coming on accidentally when the flashlight is stored, remove the batteries. If the 3410PL flashlight is turned on while it is in a container, the flashlight can overheat and damage the flashlight or the material of the surrounding area.

## O-RING MAINTENANCE

Check closely for cuts, scratches, or otherwise damaged o-ring or mating lens lip surface. Remove any dirt or foreign matter from o-ring sealing surfaces. Keep threads, o-ring groove and inside lip of lens lubricated with silicone grease.

## Battery Safety Bulletin Alkaline Batteries

1. Hazardous location safety approvals for explosive environments are only valid for the specified cell type manufacturer and, where applicable, brand names that are displayed on the flashlight and/or instructions sheets that are supplied with the light.
2. The use of other battery technologies may reduce the performance of the flashlight.

Always read the battery manufacturers recommendations for the appropriate use of the battery technology/brand prior to using them in the flashlight.

3. When replacing the batteries:
  - a. Replace all the batteries at the same time.
  - b. Do not mix battery brands and old and new batteries.
  - c. Always insert batteries correctly with regard to polarity (+ and -) marked on the battery and equipment.
4. Do not change batteries in a hazardous location.
5. Remove batteries from equipment if it is not to be used for an extended period of time
