Revisit every wildlife encounter in sharp thermal imaging

The Scion OTM is ready to capture any wildlife encounter with onboard video and image recording. Internal storage and a built-in microSD™ card slot provide enough memory for the most demanding trips, while Bluetooth and Wi-Fi capability allow simple file transfer between devices.

REDESIGNED USER INTERFACE

The Scion OTM's polished user interface packs functionality into a rugged handheld optic

Intuitive controls and revamped internal menus allow quick thermal palette adjustments and easy access to new features, such as picture-in-picture zoom and GPS functionality. A rugged IP67-rated housing stands up to the elements and protects key hardware components.

TRUSTED THERMAL DETECTION

Powered by FLIR's breakthrough Boson thermal core

Able to perform at any time of day, thermal imaging sees through complete darkness, glaring light, and lingering haze to provide superior awareness in difficult conditions.
