

CASE-VENTED-LOCK

Lockable Vented Security Case

The lockable, vented security case provides complete enclosure protection for HOBO data loggers. It has air circulating ports on all four sides to ensure ample air circulation for proper data logger operation. Each guard has a permanently-attached, eight-tumbler type lock, and each kit is supplied with a key. Guard kits are available with two mounting base types: solid or ring. When using the ring base models, the guard can be mounted to the wall without removing the data logger.

Items included are: Clear case cover, mounting screws, solid mounting base, ring mounting base, built-in lock with one key

Data logger sold separately

Key Advantages:

- Provides a secure means of mounting data loggers
- Can be mounted to the wall over an existing logger installation, if desired
