Password change completed

Your password has been changed successfully.

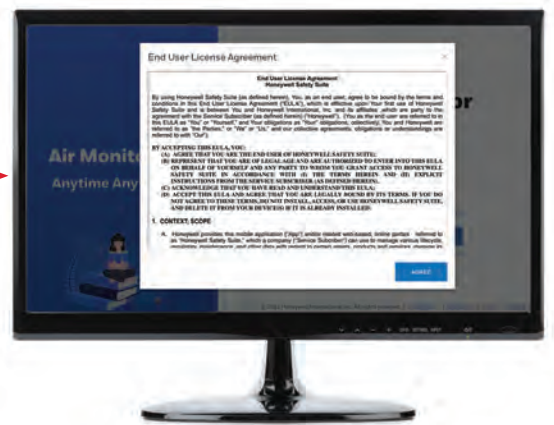

BACK TO LOGIN

02 WEB PORTAL LOGIN, CREATE SITE/ORG AND ADD ROOM/DEVICE

A
Web Portal -
Login

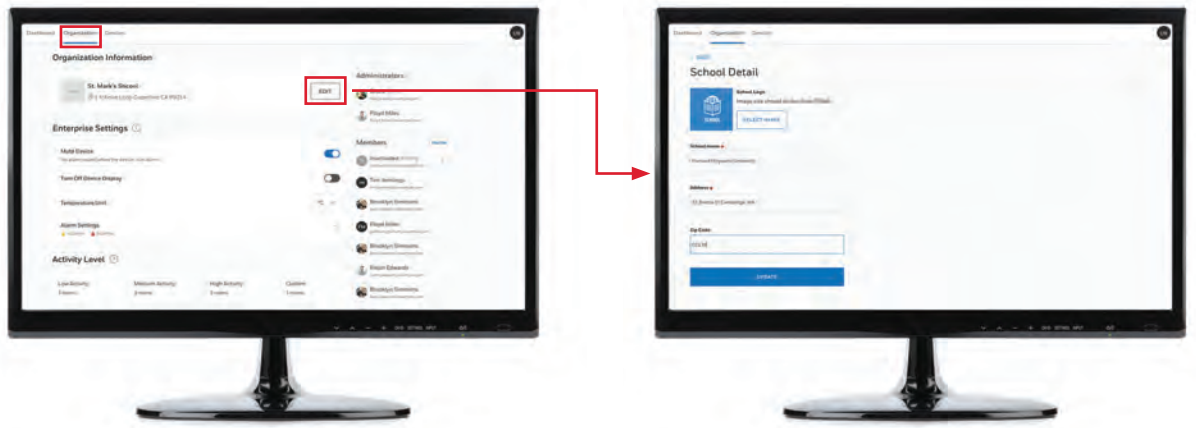

Login with correct credentials. Please note that LOGIN button is enabled only when the checkbox is checked.

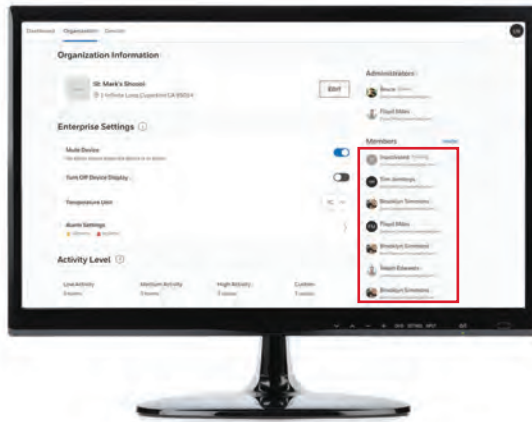

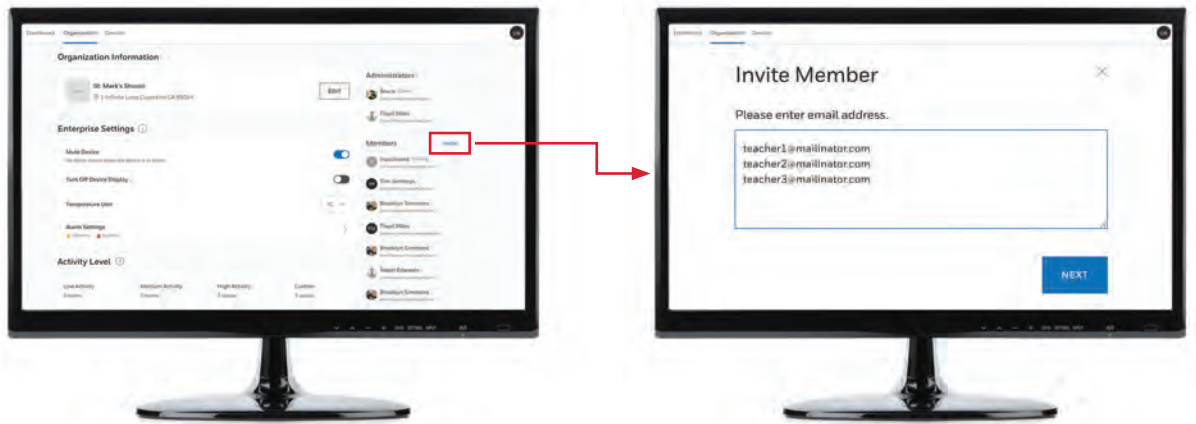

Accept EULA and Disclaimer (only on first-time login).

B
Web Portal -
Setup Site/
Organization

Finish Site/Organization/School Setup

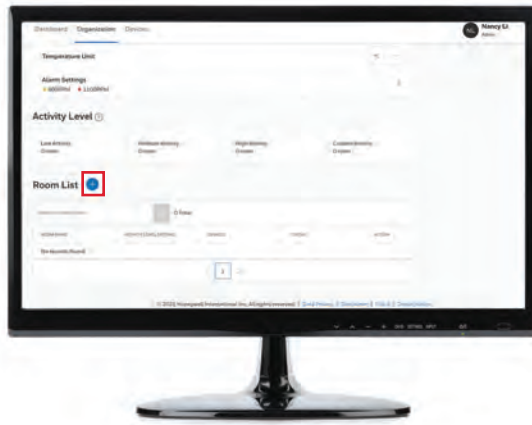

C
Web Portal -
Invite Members

Note: Any member who did not activate his/her account will be shown as pending, and the admin user is able to resend the invitation mail to those pending members. Once the member account is activated, the resend option will be disabled.

D
Web Portal -
Add Rooms

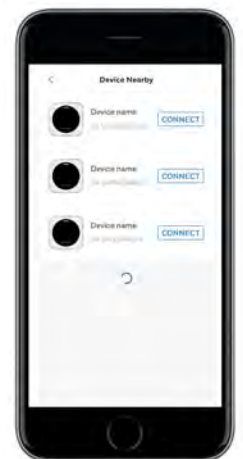

Note: Refer to the Activity level help (question mark icon) to decide which room activity is appropriate.

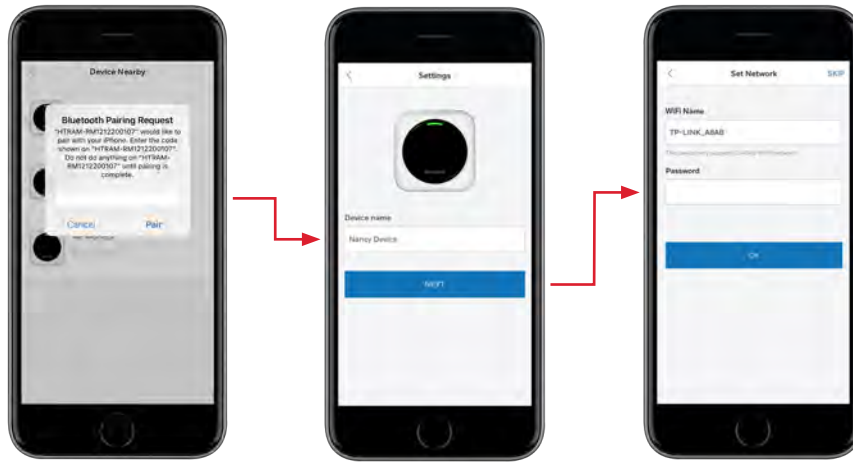

Note: Once room is created successfully, the toast message will display at the right top of the page and disappear after 3 seconds.

E
Web Portal -
Add Devices

Next, login to the Mobile App to Pair and Add Devices.

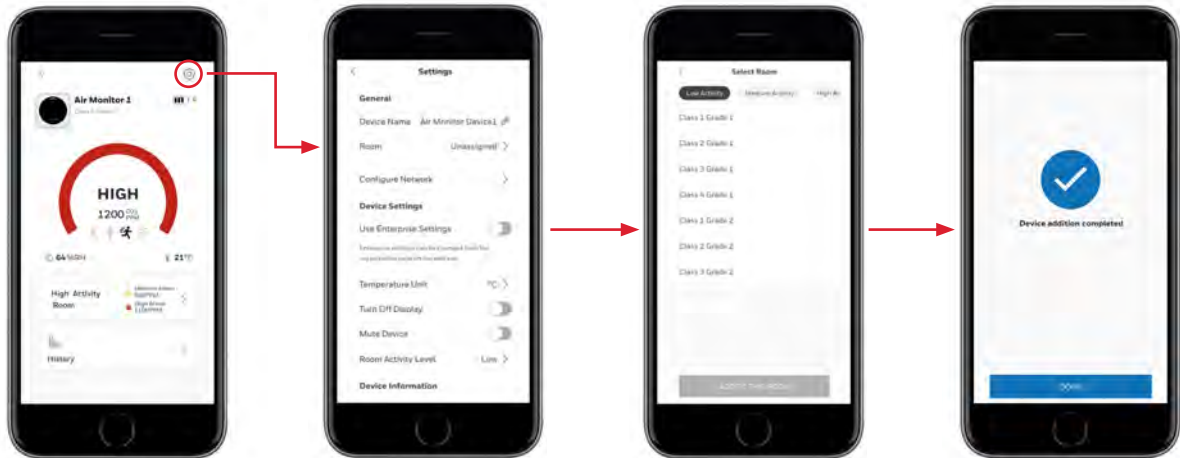

F
Bluetooth® and
WiFi Connection

Input the PIN code displayed on the device screen

When connecting to enterprise WiFi networks, specific enterprise security requirements may apply.

G
Mobile App -
Add Device to
a Room

03 WEB PORTAL
DASHBOARD, SITE-LEVEL
ALARM SETTING & DEVICE SETTING

A
Web Portal:
Dashboard

Note: Dashboard page will display all rooms by default.

Note: By clicking into a room, the user can see all the devices within.

B
Web Portal:
Site Level
Alarm Setting

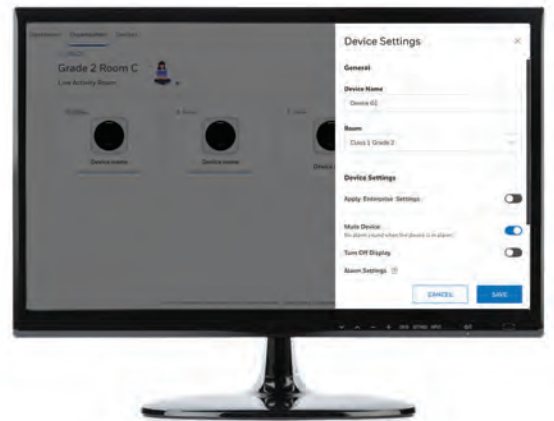

Note: When enabled, enterprise settings will change the settings on all devices.
 Enterprise settings can be enabled from the device settings screen.

C
Web Portal:
Device Setting

Note: A filter may be used to exclude or include the devices displayed. The user can filter the devices based on activity levels.

Note: The Admin user is allowed to change the following:
 device name, room for current device, and device settings.

C
Web Portal:
Device Setting

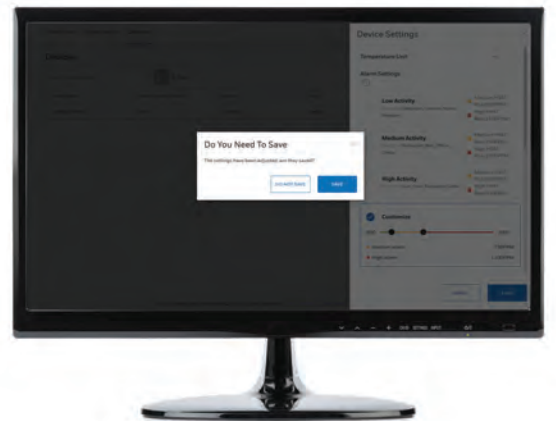

Note: The Admin user can make the same changes from the Device Settings screen.

Use Enterprise Settings

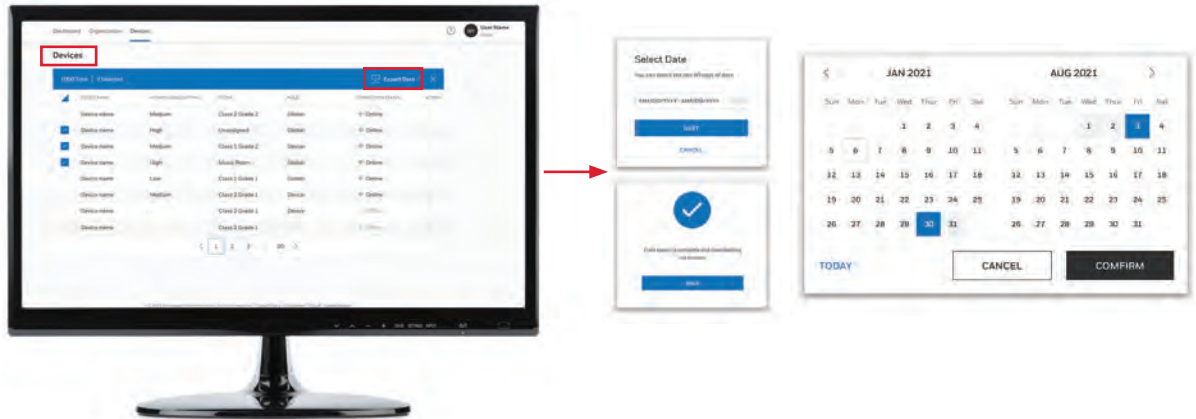

Note: If the current device is using the device local setting, user can apply enterprise settings by enabling the “Use Enterprise Settings” option. Any additional enrolled device to room will auto apply current room activity level.

Note: An alarm setting change in any device will apply to all other devices in the same room.

04 WEB PORTAL DOWNLOAD HISTORICAL DATA AND OTHER FUNCTIONS

A Web Portal: Download Historical Data

B Web Portal: Help

Note: Clicking the question mark icon will open a new tab with FAQ and also offer a download of the latest user manual page.
