Gas Detection

## Honeywell BW<sup>™</sup> MicroClip Series

#### Multi-gas detectors

Honeywell

THE POWER OF CONNECTED

#### Small size. Easy to use. Reliable operation. Affordable protection.

With that combination of benefits, it's no wonder the Honeywell BW<sup>™</sup> MicroClip is the world's most popular multi-gas detector, serving as your trusted companion in hazardous environments — keeping you safe without weighing you down. Plus, it's the first multi-gas detector with a rating of IP68 for unmatched water protection — up to 45 minutes at a depth of 1.2m. So you can be confident it will stand up to challenging conditions.

Choose from two detectors, both with extended 18-hour battery runtime, one-button operation and Honeywell's rigorous approach to quality:

Honeywell BW<sup>™</sup> MicroClip XL: low up-front cost with a two-year warranty. Honeywell BW<sup>™</sup> MicroClip X3: three-year warranty and a new oxygen sensor that extends overall expected service lifetime to 5 years.

### Use our unique advanced technology for safety, compliance and productivity.

- Advanced engineering for reliable battery performance
- Reflex™ Technology to ensure sensor responsiveness
- Compact, lightweight and easy to use no expertise required
- Flashing green IntelliFlash™ light for compliance at a glance

#### **Optional Accessories**

- Honeywell IntelliDoX Automated Test System
- Honeywell BW™ Connect
- IR connectivity kit
- Five unit cradle charger

#### FEATURES & BENEFITS

- Guaranteed runtime for at least a 12-hour shift

   down to -20°C –
   without compromising LEL detection of hydrogen, acetylene and other combustible gases
- Durable, rechargeable lithium polymer battery – tested to last in extreme environments
- Ergonomic and wearable – doesn't weigh you down
- Real-time gas concentrations shown on LCD
- Bright, wide-angle visual alarm bars
- IntelliFlash<sup>™</sup> light indicating detector has been bump tested and is monitoring correctly

• IP68 rating ensures

depth of 1.2m

• User-friendly,

maximum protection

against dust and water

– up to 45 minutes at a

tamperproof operation

and intuitive LCD icons

with just one button

- Self-test of sensors, battery status, circuit integrity and audible/ visual alarms on startup
- Compatible with IntelliDoX docking station for automated bump tests and calibration
- Multi-language support in English, French, German, Spanish and Portuguese
- Device Management with Honeywell SafetySuite

Honeywell BW™ MicroClip X3

 Compatible with Honeywell BW<sup>™</sup> Connect for real time monitoring

### Honeywell BW™ MicroClip X3:

Honeywell BW<sup>™</sup>

MicroClip XL

-

- Five-year life expectancy plus a three-year warranty
- An all-new oxygen sensor that operates consistently for five years — with no replacement costs for the life of the detector
- Superior cost of ownership with minimized maintenance and maximized uptime
