

HOBO® RX3004-SYS-KIT-813

RX3000 Remote Weather Station Starter Kit

The HOBO RX3000 Weather Station Starter Kit provides instant access to site-specific air temperature, relative humidity, and wind speed/direction data anywhere, anytime on your desktop or mobile device.

The RX3000 accepts up to 10 plug-and-play Smart Sensors. Just plug in your sensor and it's automatically recognized – no programming, wiring, or calibration necessary.

This weather station kit includes a one-year cellular data plan plus cloud-based data access through HOBOLink – for 24/7 access to your data and the ability to verify RX3000 system status, set up and manage alarm notifications, and schedule automated delivery of data.

Supported Measurements:

Barometric Pressure, Leaf Wetness, Light Intensity, Rainfall, Relative Humidity, Soil Moisture, Temperature and Wind

Key Advantages:

- Provides basic components needed for any weather monitoring application
- Cloud-based data access
- Plug-and-play operation
- Rugged double-weatherproof enclosure
- Provides alarm notification via text, email
- In addition to the included temp, RH, wind speed/direction measurements, other sensor options can be added (as noted below), depending on your application requirements

HOBO RX3004-SYS-KIT-813 Specifications

- HOBO RX3000 Cellular Data Logger
- 5W Solar Panel - SOLAR-5W
- Temperature/RH Smart Sensor with 2-meter cable - S-THB-M002
- Wind Speed Smart Sensor with 3-meter cable - S-WSB-M003
- Wind Direction Smart Sensor with 3-meter cable - S-WDA-M003
- Full Crossarm for Wind Speed/Direction sensors - M-CAA
- Solar Radiation Shield for Temperature & RH sensor - RS3-B
- Cloud-based data access through HOBOLink
