

WeatherFlow

PRECISION SHOOTING WINDmeter & WEATHERmeter for Smartphones

BallisticsARC

by

GeoBallistics™

GeoBallistics™ and WeatherFlow™ have partnered to bring a complete precision shooting solution to mobile devices by combining GPS range finding and ballistic calculations with accurate on-site weather sampling.

WeatherFlow's WINDmeters and WEATHERmeters for Precision Shooting integrate seamlessly with BallisticsARC, the most powerful FREE ballistics calculator available for iOS and Android devices.

The WeatherFlow Precision Shooting hardware, with the BallisticsARC app, provides the most intuitive and cost effective long range system available today. Shooters now have the ability to produce accurate solutions in less time, with less equipment, and at a fraction of the cost of the competition.

These products are ideal for any shooter who is serious about optimizing the performance of their rifle when shooting long distance, including competition shooters and long range hunters.

The only meter and app combo that gives shooters the tools to create a complete long range solution.

WINDmeter

- Pocket-sized anemometer
- Wind speed (avg, gust, apparent, true)
- Wind direction (magnetic & true)
- Crosswind & headwind/tailwind
- Plugs into 3.5mm audio jack

WFPSM-01

WEATHERmeter

- Pocket-sized weather station
- All parameters of standard WINDmeter
- Temperature & relative humidity
- Pressure & density altitude
- Heat index, wind chill, and more
- Bluetooth® Smart (super energy efficient)
- Hand-held or attached to any 1/4-20 camera mount up to 100 ft. away

WFPSM-02
